Intro/ Da da...dadadadada...dadada...da~~~~~

Verse 1/ Where do lovers go
When their hearts are broken

I was lying to myself
Like I wanted somebody else, No

Inconsistent with how I started
Knowing damn well that I had fallen... Yeah!

Can't get you out of my head
Life without you I'm good as dead
Just know when love

Hook/ When love strikes
Cupid gone on home
Know when love strikes
Don't wanna be alone
Know when love strikes
Emotions running wild
Every day, every night

Repeat 1X

Verse 2/ What is there to say
When you catching feelings for someone else

It was lust at first
Until I recognized her worth

Ooh... The moment I met her mother
Seen why her father never left her... Yeah!

Girl we're about to sin
Wish I could tell you what happen next
Just know when

Hook/ ~~~~~

Bridge/

Life is real
I know a thang or two

The way I feel
Expressing the whole truth

Honestly, I could never leave
Cause I can't stop thinking bout you

Yeah, yeah...ooh...ohh
Since your love struck me, baby
I don't want to go no further without you in my life

Cupid you can go on home  
All I want is my baby

I love everything about you  
The way that you smile  
The way that you kiss  
The way that you think make you so attractive  
Know when love...yeah

And never ever ever be without you... oh, no  
Every day, and every night
